## ABOUT US

**HIGHRISE LIFT & VENTURES** was established in 2015. The company is formed to offer the best experience by developing and delivering solutions that enable people to move smoothly, safely, comfortably and without waiting in buildings in an increasingly urbanizing environment. H.L.A.V. provides innovative and eco-efficient solution for elevators, escalators and automatic building doors. We support our customers in every step in the way from design and installation to maintenance and modernization. Our commitment to customers is present in all H.L.A.V. solution. This makes us a reliable partner through the out life-cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible and we have a well-deserved reputation as a technology developer with such innovations as and when required.

## OBJECTIVE

Our modern life, full of benefit from the advance of civilization, is always attended with a lot of danger. We believe enterprises should meet customers' comfortable life and safety at the same time and understand that when products and services of a company cannot satisfy customers' needs and convenience, the company will lose the meaning of existence.

H.L.A.V. has been grown and developed by customers' encouragement and support, our promise, we will do all our best to accomplish the worth of human life and create a much better future, performing our corporate philosophy. "Customer First" and contributing to improvement of elevator safety and customers' comfortable life by means of pursuing the best quality products and services with the spirit of artisanship.

## PRODUCT RANGE

### CABIN

- Mild Steel Cabin.
- Stainless Steel Cabin.
- Glass Cabin.
- Wooden Cabin.

### RANGE OF DOORS

- Collapsible Door.
- Steel Glass Wooden/Swing Doors.
- Telescopic Manual Doors.
- Centre Opening Auto Door.
- Side Opening Auto Door.
- Imperforated (IFG) Doors.
- Glass Panel Automatic Doors.

## SPECIAL FEATURES

- Variable Voltage/ Variable Frequency Drive (V3F 30% Power Saving).
- Automatic Rescue Device (ARD).
- Floor Announcement System.
- Touch LOP & COP.
- Fireman Safety Alarm.
- Emergency Alarm.
- Tele Calling System.
- Designer Cabin & Fall Ceiling.
- Over Load Device

## OUR FEATURES

- Quick Installation.
- After Sales & Services.
- Quality Product.
- 24x7 Service Available.
- Service Attend Within 3 Hours .
- All Type of Lift Maintenance (With Yearly Contract).

## INNOVATIVE SOLUTION

By using Pneumatic Technology® to generate areas of higher and lower pressure within the cylinder hoistway, Pneumatic Elevators combine a vertical cylinder with a fully enclosed car that smoothly moves up and down through air suction and gravity.

### What advantages do Pneumatic Elevators offer?

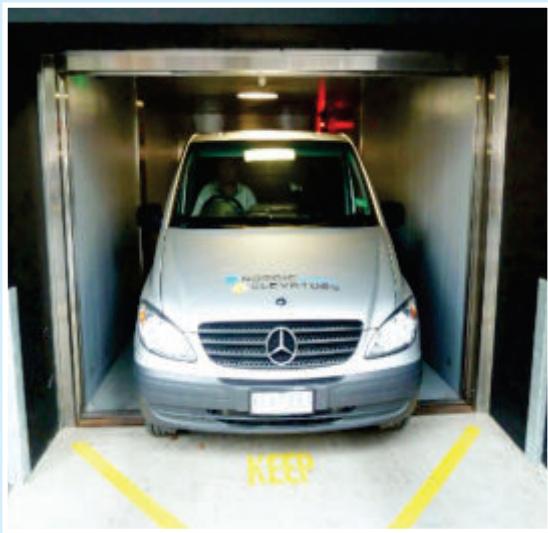

Not requiring a pre-construction shaft, pit or machine room, Pneumatic Elevators simply rest on the existing ground floor, offering more flexibility of installation while optimizing space within the home.

With minimal pre-construction requirements, Pneumatic Elevators are quick & easy to install with installations being completed in as little as 2 - 3 days.

A plug & play system requiring a 220 volt power supply, these eco-friendly elevators utilize very few moving parts during operation and have minimal maintenance requirements with no harmful oils, gases or lubricants utilized for operation.

Certified for up to 5 stops or 50 feet in total rise, Pneumatic Elevators are custom built to the height of each home with three different sizes available to meet your projects spatial and installation requirements.
